### **First Tee Golf**

August has been very exciting here at First Tee. To start the month, we did our second Aerification process of the year on August 12 and 13th. Being able to do two Aerifications every year is beneficial to the health of the putting surface.

We continue to see a rise in attendance and green fees here at First Tee compared to last year. Currently, we are sitting at \$225,237.52 in gross revenue which is an increase of 12.75% from last year. We have done a total of 15,321 transactions with an average net sale of \$14.58. As we continue this trend, we are projected to make over \$300,000 in revenue for the year which would be the highest recorded revenue year for First Tee since the city took over Operations.

On Saturday, August 24, we had the fall US kids tournament. This brought over 75 young adults from around the state and surrounding states to our golf course and our city. The weather was beautiful that day.

Complements continued days after about the quality of the golf course and playing conditions. All in all, it was a huge success and a great revenue day for us..

Golf cart rentals remain the number one selling item. We have done a total of \$82,026.01 in golf cart rentals this year so far. With golf cart rentals being our number one selling item, this means that they get used very frequently. Not having cart paths on the golf course is still a concern to not only the golf course conditions but also the wear and tear of the golf carts themselves.

Unfortunately, we have had a strain of burglaries here at night with individuals either stealing or attempting to steal our golf carts. We are in the process of installing a new camera system and I am working together with Little Rock Police Department detectives to figure out ways to resolve this issue.

But let's bring it back to some good news. As we start to prep for the fall and winter months, we focus our attention on our budget and needs until the end of the year.

If you have not been to First Tee or played the golf course, we welcome you to come out and check out our facility. As facility supervisor here at First Tee, it is my goal to make sure you have an enjoyable experience when you come out to play golf.
